It's easy and convenient! A virtual seminar is one that you can "attend" and participate in right from your offices. There is no travel time, and now provided at NO COST to RFA members!

The RFA Technical Webcast will include live audio along with a slide presentation on the Web. You just need a phone connection for the audio and an Internet connection.

In addition, the webcast will allow you to comment and ask questions at specified times during the event using your phone.

You can invite staff members to listen and participate too! To get the most out of a webcast, it is recommended that you have no more than five people at any one computer connection. If you have multiple locations, please register each location separately.
